CONVENIENCE TRANSLATION INTO ENGLISH OF THE INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH

INDEPENDENT AUDITOR'S REPORT

To the General Assembly of Kocaer Çelik Sanayi ve Ticaret Anonim Şirketi

A- Report on the audit of the consolidated financial statements

1-Opinion

We have audited the consolidated financial statements of Kocaer Çelik Sanayi ve Ticaret Anonim Şirketi (the "Company" or "Kocaer Çelik") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Turkis Accounting/Turkish Financial Reporting Standards ("TASs/TFRSs").

2- Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs") issued by Capital Markets Board (the "CMB") that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants ("Code of Ethics") together with the ethical requirements regarding independent audit in regulations issued by POA and CMB regulations that are relevant to our audit of the consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3-Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Fair value risk and cash flow hedge accounting (Note 39)	
In accordance with the contracts made by the Group management, Kocaer Çelik applies cash flow hedge transactions on its consolidated statement of financial position to manage foreign currency risk due to securities issued at fixed rate and loans and advances at floating rate with cross-currency swap transactions. In this context, the Group applied cash flow hedge accounting arising from fair value risk with unrecognised firm commitment contracts due to highly probable forecast transactions. We considered fair value risk and cash flow hedge accounting are material to consolidated financial statements due to following matters: As of 31 December 2025, losses on cash flow hedge transactions presented under equity is amounting to TL 649.655.963 are material to Kocaer Çelik's consolidated financial statements. The criteria for the application of the hedge accounting include defining, documenting and regularly testing the effectiveness of the hedge accounting transactions. Due to the fact that hedge accounting has complex structure and requires technical calculations, we considered this to be one of the key audit matters.	The audit procedures for testing hedge accounting included below: We have evaluated and examined the documentation and appropriateness of hedging relationships of cash flow hedge and fair value hedge transactions and the main reasons of hedge accounting including strategy and aims determined by the Group management regarding the application of hedge accounting. We have evaluated the effectiveness of hedge accounting. In addition, we have tested whether the gains/losses on the fair value of the income planned to be obtained in the subsequent periods, the gains/losses on the fair value of the loans are between 70% and 130%. We have assessed the compliance of the sales subject to the cash flow hedge accounting with the budget approved by the Group management and the contracts regarding these sales. We have controlled and evaluated the compliance of the methods applied in the calculation of costs regarding contracts applied on hedge accounting transactions. We have controlled the repayment schedule of the EUR and USD loans which are also tested with loan agreements through bank reconciliation statements. We have evaluated in what extent month loan repayment schedule meet the monthly sales. We have controlled the mathematical accuracy and recognition of the accounting records on the hedge accounting. Testing the adequacy of the disclosures in the consolidated financial statements in relation to the fair value risk and cash flow hedge accounting, We had no material findings related to the fair value risk and cash flow hedge accounting as a result of these procedures.

T.C. BAĞIMSIZ DENETÇİ 229

Key audit matter	How our audit addressed the key audit matter
Fair value of property, plant and equipment (Note 18)	
As disclosed in Note 18, the consolidated financial statements as at and for the year ended 31 December 2025 include property, plant and equipment carried at fair value amounting to TL 12.101.491.115 which includes land, buildings, plant, machinery and equipment, motor vehicles and furniture and fixtures. Aforementioned amount represents a significant portion of the Kocaer Çelik's total assets. Fair values of property, plant and equipment of the Group are recognized according to appraisal reports issued by independent experts authorised by the CMB. We considered fair values of property, plant and equipment are material to consolidated financial statements due to following matters: -The determination of fair valuation study includes data that have unobservable in the market and is determined by using an independent appraisal experts, -The calculation of fair value is affected by current market conditions, Accordingly, the amount and nature of property, plant and equipment are material to the consolidated financial statements.	We performed the following procedures in relation to the fair value of property, plant and equipment: We have controlled the frequency of revaluation of property, plant and equipment and its compliance in accordance with the TAS 16 "Property, plant and equipment". In accordance with the meetings and discussions made with the Group and independent appraisal experts, we have not observed that there is no significant and irregular change incurred in the fair value of the property, plant and equipment. In accordance with the meetings and discussions made with the Group and independent appraisal experts, we have not observed that there is no significant and irregular change incurred in the assumptions and factors used in the fair value calculation of the property, plant and equipment. We have compared and assessed the comparable sales m^2 unit values of the property, plant and equipment located in the area close to the land owned by the Group and subject to revaluation at the end of 2025 by the independent appraisal experts appointed by the Group, with the Group's property, plant and equipment carrying values. In addition, we have controlled whether impairment on property, plant and equipment incurred during the reporting period. We have tested title deed records ownership interests of property, plant and equipment which includes land and buildings. Testing the adequacy of the disclosures in the consolidated financial statements in relation to the fair value of property, plant and equipment, We had no material findings related to the fair value of property, plant and equipment as a result of these procedures.

Key audit matter	How our audit addressed the key audit matter
Application of TAS 29 – "Financial Reporting in Hyperinflationary Economies"	
As disclosed in Note 2.1, the Group applied TAS 29 "Financial reporting in hyperinflationary economies ("TAS 29") in the consolidated financial statements as at and for the year ended 31 December 2025. TAS 29 requires consolidated financial statements to be restated into the current purchasing power at the end of the reporting period on 31 December 2025. Therefore, transactions in 2025 and non-monetary balances at the end of the period with prior year statements with comparative information were restated to reflect a price index that is current at the balance sheet date as of 31 December 2025. In addition, considering the additional effort required to perform the audit of the application of TAS 29, we identified the application of TAS 29 as a key audit matter.	We performed the following audit procedures in relation to the application of TAS 29: - Understanding and evaluating the process and controls related to application of TAS 29 designed and implemented by the Group management, - Obtaining detailed lists of non-monetary items and testing original entry dates and amounts on a sample basis, - Verifying whether the Group management's determination of monetary and non-monetary items is in compliance with TAS 29, - Verifying the general price index rates used in calculations correspond with the coefficients in the "Consumer Price Index in Turkey" published by the Turkish Statistical Institute, - Evaluating the appropriateness of the Group management's judgments by comparing with current practices and using our industry knowledge and experience including ensuring the comparison with prior period, - Testing the mathematical accuracy of non-monetary items, consolidated statement of profit or loss, and statement of cash flow adjusted for inflation effects, - Evaluating the adequacy of disclosures related to the application of TAS 29 in the notes to the consolidated financial statements in accordance with TFRS, We had no material findings related to the application of TAS 29 and inflation accounting as a result of these procedures.

4- Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Group management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with TAS/TFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

5- Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with ISAs is a high level of assurance but does not guarantee that a material misstatement will always be detected. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an independent audit conducted in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- Assess the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B- Report on Other Legal and Regulatory Requirements

1) According to the Turkish Commercial Code ("TCC") No. 6102 and pursuant to the fourth paragraph of Article 398 of the Turkish Commercial Code No. 6102 ("TCC"), the independent auditors report on the Early Risk Identification System and Committee was presented to the Group's Board of Directors on **26 February 2026**.

2) No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code ("TCC") No. 6102 and that causes us to believe that the Group's bookkeeping activities concerning the period from 1 January to 31 December 2025 period are not in compliance with the TCC and provisions of the Group's articles of association related to financial reporting.

3) In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

The engagement partner who supervised and concluded this independent auditor's report is Dr. Hakkı DEDE.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.01 Basis of presentation

The consolidated financial statements of the Group have been prepared in accordance with Turkish Financial Reporting Standards ("TFRS") promulgated by the Public Oversight Accounting and Auditing Standards Authority ("POA") that are set out in the 5th article of the communiqué numbered II-14.1 "Communiqué on the Principles of Financial Reporting In Capital Markets" ("the Communiqué") announced by the Capital Markets Board ("CMB") on 13 June 2013 and published in Official Gazette numbered 28676. TFRS are updated in harmony with the changes and updates in International and Accounting Standards ("IFRS") by the communiqués announced by the POA. The consolidated financial statements are presented in accordance with the TAS Taxonomy published by POA and the formats specified in the Financial Statement Examples and User Guide published by CMB in the Bulletin numbered 2013/19.

The Group and its subsidiaries and associates maintain their books of accounts and prepare their statutory financial statements in accordance with the Turkish Commercial Code ("TCC") No. 6102, tax legislation, the Uniform Chart of Accounts issued by the Ministry of Finance. The consolidated financial statements are based on the statutory records, which are maintained under historical cost conversion except for property, plant and equipment including land, buildings, land improvements and plant, machinery and equipment at fair value and financial assets and liabilities at fair value with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with TFRS and presented in Turkish Lira ("TL").

Foreign subsidiaries maintain their books of account in accordance with the laws and regulations in force in the countries in which they are registered. Adjustments and restatements, required for the fair presentation of the consolidated financial statements in conformity with the

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

TAS/TFRS, have been accounted for in the statutory financial statements, which are prepared in accordance with the historical cost principle in accordance with TAS/TFRS.

Reporting currency

i) Functional and presentation currency

Items included in the consolidated financial statements of the subsidiaries and associates of the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in TL, which is Kocaer Çelik's functional and presentation currency.

ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of other comprehensive income.

iii)Translation of the financial statements of subsidiaries and associates operating in foreign countries

Assets and liabilities of the subsidiaries operating in foreign countries are translated into TL at the exchange rates prevailing at the balance sheet dates. Comprehensive income items of those subsidiaries are translated into TL using average exchange rates for the period (if the average exchange rates for the period do not reasonably reflect the exchange rate fluctuations, transactions are translated using the exchange rates prevailing at the date of the transaction). Exchange differences arising from using average and balance sheet date rates are included in "currency translation differences" under equity.

The GBP ("GBP") rates as of 31 December 2025 and 2024 and annual average rates are as follows:

	31.12.2025	**31.12.2024**
GBP ("GBP") - as of the balance sheet date	57.8159	44.2073
GBP ("GBP") - period average	51.9686	41.8651

2.02 Adjustments of Financial Statements in Hyperinflationary Periods

Financial Reporting in Hyperinflationary Economies

In accordance with the announcement realised by the Public Oversight Accounting and Auditing Standards Authority (the "POA") on 23 November 2023, entities applying TFRSs have started to apply inflation accounting in accordance with TAS 29 Financial Reporting in Hyperinflationary Economies for the annual reporting period beginning on or after 31 December 2023. TAS 29 is applied to the financial statements, including the consolidated financial statements, of entities whose functional currency is the currency of a hyperinflationary economy.

In accordance with the standard, financial statements prepared in the currency of a hyperinflationary economy are stated in terms of the purchasing power of that currency at the balance sheet date. For comparative purposes, comparative information in the prior period financial statements is expressed in terms of the measuring unit current at the end of the reporting period. Therefore, the Group has also presented its consolidated financial statements as at and for the year ended 31 December 2025 and 2024 in terms of the purchasing power on 31 December 2025.

In accordance with the CMB's resolution No: 81/1820 on 28 December 2023, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards are required to apply inflation accounting by applying the provisions of TAS 29 beginning with the annual financial statements for the accounting periods ending on 31 December 2023.

In accordance with the CMB's decision dated 28 December 2023 and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards shall apply inflation accounting by applying the provisions of TAS 29 starting from their annual financial reports for the accounting periods ending on 31 December 2023.

The restatement in accordance with TAS 29 has been made by using the adjustment factor derived from the Consumer Price Index ("CPI") in Türkiye published by the Turkish Statistical Institute ("TURKSTAT"). As of 31 December 2025, the indices and adjustment factors used in the restatement of the financial statements are as follows:

Date	Index	Adjustment coefficient	Three-year cumulative inflation rates
31 December 2025	3.513,87	1	211%
31 December 2024	2.684,55	1.30892	291%
31 December 2023	1.859,38	1.88981	268%

The main components of the Group's restatement for financial reporting purposes in hyperinflationary economies are as follows:

- The consolidated financial statements for the current period presented in TL are expressed in terms of the purchasing power of TL at the balance sheet date and the amounts for the previous reporting periods are restated in accordance with the purchasing power of TL at the end of the reporting period.
- Monetary assets and liabilities are not restated as they are currently expressed in terms of the purchasing power at the balance sheet date. Where the inflation-adjusted carrying amounts of non-monetary items exceed their recoverable amounts or net realisable values, the provisions of TAS 36 "Impairment of Assets" and TAS 2 "Inventories" are applied, respectively.

- Non-monetary assets, liabilities and equity items that are not expressed in the current purchasing power at the statement of financial position date are restated by using the relevant adjustment factors.

- All items in the statement of comprehensive income, except for the non-monetary items in the statement of financial position that have an effect on the statement of comprehensive income, are restated by applying the coefficients calculated over the periods in which the income and expense accounts were initially recognised in the financial statements.

- The effect of inflation on the Group's net monetary asset position in the current period is recognised in the gains/(losses) on net monetary position in the consolidated statement of profit or loss.

The material influence and impact of the application of inflation accounting in accordance with TAS 29 are summarised below:

Restatement of the statement of financial position

Amounts in the statement of financial position that are not expressed in terms of the measuring unit current at the end of the reporting period are restated. Accordingly, monetary items are not restated because they are expressed in the currency of the reporting period. Non-monetary items are required to be restated unless they are expressed in terms of the currency in effect at the end of the reporting period.

The gain or loss on the net monetary position arising on restatement of non-monetary items is recognised in profit or loss and presented separately in the statement of comprehensive income.

Restatement of the statement of profit or loss

All items in the statement of profit or loss are expressed in terms of the measuring unit current at the end of the reporting period. Therefore, all amounts have been restated by applying changes in the monthly general price index.

Cost of inventories sold has been restated using the restated inventory balance. Depreciation and amortisation charges have been restated using the restated balances of property, plant and equipment, intangible assets and right-of-use assets.

Restatement of the statement of cash flows

All items in the statement of cash flows are expressed in terms of the measuring unit current at the end of the reporting period.

Consolidated financial statements

The financial statements of a subsidiary whose functional currency is the currency of a hyperinflationary economy are restated by applying the general price index before they are included in the consolidated financial statements prepared by the parent company.

Subsidiaries of the Group whose functional currency is other than Turkish Lira have been translated to the purchasing power on 31 December 2025. If financial statements with different reporting period endings are subject to consolidation, all items, whether monetary or non-monetary, are restated according to the measuring unit in effect at the date of the consolidated financial statements.

Comparative figures

Relevant figures for the prior reporting period are restated by applying the general price index so that the comparative financial statements are presented in the measuring unit applicable at the end of the reporting period. Information disclosed for prior periods is also expressed in terms of the measuring unit current at the end of the reporting period.

2.03 Basis of Consolidation and Group Accounting

After the restructuring realized by the Group management and ceasing the operations of home textile, the main and sole activities of the Group became iron, steel and transportation operations. In order to present the consolidated financial position and the results of operations, the Group prepared its consolidated financial statements comparatively with the prior period.

The consolidated financial statements include the accounts of the Group, and its subsidiaries from the date on which the control is transferred to the Group until the date that the control ceases. The consolidated financial statements of the entities included in the scope of consolidation have been prepared as of the date of the consolidated financial statements and have been prepared in accordance with Turkish Financial Reporting Standards ("TFRS") by applying uniform accounting policies and presentation.

Subsidiaries

The Group has control over an entity when it has existing rights that give it the current ability to direct the relevant activities, i.e. the activities that significantly affect the entity's returns. On the other hand, the Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. In order to be consistent with accounting policies accepted by the Group, accounting policies of the subsidiaries are modified where necessary.

The statement of financial position and profit or loss of the Subsidiaries are consolidated on a line-by-line basis and the carrying value of the investment held by Kocaer Çelik and its subsidiaries is eliminated against the related equity. Intercompany transactions and balances between Kocaer Çelik and its subsidiaries are eliminated during the consolidation. The carrying value of the investment held by Kocaer Çelik and its subsidiaries is eliminated against the related equity and other equity items and non-controlling interest are reflected to the consolidated financial statements.

The non-controlling share in the net assets and results of subsidiaries for the period are separately classified as "non-controlling interest" in the consolidated statements of comprehensive income and the consolidated statements of changes in equity.

Voting rights of the subsidiaries and their effective ownership interests are as follows:

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

	Proportion of voting rights and effective ownership interests held by Kocaer Çelik (%)	
Subsidiaries	**31.12.2025**	**31.12.2024**
Yağız Nakliyat San. Ve Tic. A.Ş.	90.81	90.81
Kocaer Steel UK LTD	90	90
Kocaer Enerji A.Ş.	99	99
KCR Dış Ticaret A.Ş.	99	99

Kocaer Çelik has the joint control of its subsidiaries and associates within the scope of full consolidation method including statement of financial position and profit or loss by using the shares it owns directly or indirectly, or by using the voting rights of Kocaer Family members and related parties on their behalf.

Subsidiaries are consolidated from the date on which the control is transferred to the Group and are no longer consolidated from the date that the control ceases.

Non-controlling shares in the net assets and operating results of subsidiaries are separately classified in the consolidated statements of financial position and profit or loss as "non-controlling interests".

Business combinations under common control

Legal mergers between entities controlled by the Group are not recognised under TFRS 3 (Revised) Business Combinations. IFRS does not have a specific accounting policy for this transaction. Therefore, the Group does not recognise '" Within the scope of TAS 8 "Accounting Policies, Accounting Estimates and Errors", paragraphs 10 to 12 of the definitions of 'Accounting Policies, Accounting Estimates and Errors', the Group has used the guidance on entities under common control included in Generally Accepted Accounting Principles in the United States of America.

The financial statements of the acquired entities have been consolidated from the beginning of the financial year in which the business combination occurs. Prior period consolidated financial statements have been restated in the same manner for comparability purposes. As a result of these transactions, no goodwill or negative goodwill has been calculated. Any difference between the consideration paid and the share capital of the acquired entity are accounted under equity as "Business combinations under common control" included in retained earnings.

2.04 Comparatives and Adjustment of Prior Periods' Financial Statements

The current period financial statements of the Group include comparative financial information to enable the determination of the trends in financial position and performance.

Comparative figures are reclassified, where necessary, to conform to the changes in the presentation of the current period financial statements.

The Group prepared its consolidated statement of financial position as at 31 December 2025 on a comparative basis with consolidated statement of financial position as at 31 December 2024; and consolidated statements of profit or loss, comprehensive income, cash flows and changes in equity for the year 1 January – 31 December 2025 on a comparative basis with consolidated financial statements for the year 1 January – 31 December 2024.

2.05 Changes in Accounting Policies

Whether there are changes and errors in accounting policies and accounting estimates, the amended significant changes and the identified significant accounting errors are implemented retrospectively and the previous periods Group's consolidated financial statements are restated. Whether the changes are amended in accounting policies effect the previous periods, aforementioned policy is implemented retrospectively to the consolidated financial statements as it had been used in. There has been no changes incurred in the accounting policies during the annual reporting period.

2.06 Changes in Accounting Estimates and Errors

Accounting estimates are based on reliable information and reasonable estimation methods. However, estimates are revised as a result of changes in circumstances, estimating new information or additional developments. If changes in accounting forecasts are related to only one period, amendments are made in the current period. If amendments are related to the forthcoming periods, changes are applied in both current period and forthcoming periods. The nature and amount of a change in the accounting estimate, which has a material influence on the outcome of the current period or is expected to have a material influence on subsequent periods, is disclosed in the notes to the consolidated financial statements, except when the estimation of the effect on the future periods is not possible. There are no changes in the accounting estimates and errors expected to have a material influence on the results of operations in the current period.

2.07 Offsetting

Financial assets and liabilities are offset, and the net amount is recognised in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.08 Summary of Significant Accounting Policies

Accounting policies used in the preparation of the consolidated financial statements are summarised below:

2.08.01 Revenue Recognition

The Group mainly generates revenue by producing and selling iron and steel products considered as revenue arising from product sales. Revenue is recognized when the goods or services are transferred to the customer and the performance obligation is satisfied.

Kocaer Çelik has been serving in many sectors such as energy and renewable energy, transportation, mining and tunnel, ship building, agriculture and constructional sectors by supplying customer-oriented steel products (equal angles, U and C profiles, I and H beams, round and deformed bars, mining and tunnelling profiles and fittings, square bars, flat bars) with different sizes, grades and lengths, as well as carrying out operations for product development, sales & dispatch, import/export and custom clearances.
The Group recognizes revenue when the goods or services is transferred to the customer and when performance obligation is satisfied. In accordance with TFRS 15, a five-step model is followed in recognizing revenue for all contracts with customers.

- Identification of customer contracts,
- Identification of performance obligations,
- Determination of the transaction price in the contracts,
- Allocation of transaction price to the performance obligations,
- Recognition of revenue when the performance obligations are satisfied.

A contract with a customer recognized as a revenue will be within the scope of TFRS 15 if all the following conditions are met:

(a) the contract has been approved by the parties to the contract;
(b) each party's rights in relation to the goods or services to be transferred can be identified;
(c) the payment terms for the goods or services to be transferred can be identified;
(d) the contract has commercial substance; and
(e) it is probable that the consideration to which the entity is entitled to in exchange for the goods or services will be collected.

When assessing the collectability of a consideration, the Group considers only the customer's ability and intention to pay such consideration on time. The price that the Group will be entitled to collect may be lower than the price specified in the contract since it offers a price advantage to its customer on a customer and contract basis.

2.08.02 Inventories

Inventories are evaluated at either the lower of acquisition cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Those costs also include systematically distributed costs from fixed and variable general production expenses incurred in covering direct raw material to the goods. The cost of inventories is determined by the weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. When the net realizable value of the inventory below its cost, the inventories are reduced to their net realizable value and the expense is reflected in the statement of profit or loss in the year in which the impairment incurred. In cases where the conditions that previously caused the inventories to be reduced to net realizable value lose their validity or there is an increase in the net realizable value due to changing economic conditions, the provision for the impairment allocated is reversed. The reverseal is limited with the allocated impairment. The provision for impairment on inventories is disclosed in **Note 13**.

2.08.03 Property, plant and equipment and related depreciation

Land, buildings, land improvements and machinery and equipment have been revaluated by the appraisal firm Elit Gayrimenkul Değerleme Anonim Şirketi authorized by CMB. In accordance with the appraisal report prepared by the firm on 5-13-20 December 2023 and subsequently, property, plant and equipment carried at their fair value less accumulated depreciation in the accompanying consolidated financial statements.

Property, plant and equipment except land, land improvements, buildings and machinery and equipment are carried at cost less accumulated depreciation of the purchasing power on 31 December 2004 for the items acquired before 1 January 2005 and for the items acquired as of 1 January 2005, less the accumulated depreciation in the accompanying consolidated financial statements.

Gains arising from revaluation of land, buildings, land improvements and machinery and equipment have been classified under assets and changes in the fair value (revaluation surplus) has been recognized under equity. Revaluation surplus arising from revaluation of property, plant and equipment has been initially recognised under profit or loss less impairment, if there is a depreciation related to the property, plant and equipment that was previously presented under profit or loss. The decrease in the book value arising from the revaluation of the aforementioned land, buildings and land improvements has been presented under profit or loss, if the property, plant and equipment in question exceeds the balance in the revaluation fund related to the previous revaluation.

Property, plant and equipment except land and construction in progress are carried at cost less accumulated depreciation. Depreciation is provided for property, plant and equipment on a straight-line basis over their estimated useful lives. Useful life, residual value and the depreciation method are constantly reviewed, and accordingly, parallels are sought between the depreciation method and the period and the useful life to be derived from the related asset.

Property, plant and equipment are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the asset's net selling price or value in use. Recoverable amount of the property, plant and equipment is the higher of future net cash flows from the utilisation of this property, plant and equipment or its fair value less cost to sell.
The gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss. In the disposal of the revalued property, plant and equipment, the revaluation fund related to the disposed property, plant and equipment is transferred to retained earnings.

Repairs and maintenance expenses are charged to the statements of profit or loss during the period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group. Major renovations are depreciated over the remaining useful life of the related asset. All other expenses recognised in the profit or loss in the period which they incurred.

Land is not depreciated as it is deemed to have an indefinite useful life.

The depreciation periods for property, plant and equipment, which approximate the economic useful lives of such assets, are as follows:

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

Economic useful lives (years)	
- Land	Indefinite
- Buildings	10-50
- Plant, Machinery and Equipment	0-25
- Motor Vehicles	4-10
- Furniture and Fixtures	2-50
- Leasehold Improvements	5-10

Gains or losses on disposals of property, plant and equipment are determined by comparing proceeds with their net carrying amounts and are classified under "gains/(losses) from investing activities" in the operating profit in the current period.

Repairs and maintenance expenses are charged to the statements of profit or loss during the period in which they are incurred. Machinery and equipment are capitalised and amortised when their capacity is fully available for use.

2.08.04 Intangible assets and related amortisation

Intangible assets are carried at cost value less accumulated amortization and impairment losses. These intangible assets are amortized on a straight-line basis over their estimated useful lives.

Useful life and the depreciation method are constantly reviewed, and accordingly, parallels are sought between the depreciation method and the period and the useful life to be derived from the related asset and recognised on prospective basis.

Rights and software recognized at their acquisition cost and these intangible assets are amortized on a straight-line basis over their estimated useful lives subsequently for the period between 3-10 years.

Research and development costs (R&D);

The Group started its operations regarding value-added production by establishing R&D center in its business segment in 2015 with the approval of Republic of Türkiye Ministry of Industry and Technology.

Research and development costs recognized under consolidated statement of profit or loss in the period which they incurred.

Internally generated intangible assets resulting from development activities (or the development phase of an internal project) are recognized only when all of the following conditions are met:

- The technical feasibility of completing the asset so that it will be available for use or sale.
- The intention to complete the asset and use or sell it.
- The ability to use or sell the asset.
- The asset will generate probable future economic benefits and demonstrate the existence of a market or the usefulness of the asset if it is to be used internally,
- The availability of adequate technical, financial and other resources to complete the development and to use or sell it.
- The ability to measure reliably the expenditure attributable to the intangible asset.

If an intangible item does not meet both the definition of and the criteria for recognition as an intangible asset, TAS 38 requires the expenditure on this item to be recognised as an expense when it is incurred. Development costs recognized as an expense in the prior period cannot be able to capitalized in subsequent period. Capitalized development cost is depreciated using the straight-line basis over an average of 5 years over the life of the project, with the start of commercial production of the product. Its useful life should be reviewed each reporting period to determine whether events and circumstances continue to support an indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite should be accounted for as a change in an accounting estimate. The research and development activities of the Group have been suspended and the existing research and development projects are still in progress.

Gains and losses arising from the disposal of intangible assets (the difference between net cash and the carrying value), recognized under consolidated statement of profit or loss in the period of disposal of intangible assets).

Intangible assets comprise of rights, computer software and capitalized development costs.

2.08.05 Impairment of Assets

Assets with an indefinite useful life, such as goodwill, are not subject to amortization. An impairment test is applied to these assets each year. For assets subject to amortization, impairment test is applied if the book value cannot be recovered. An impairment loss is recognized if the carrying amount of the asset exceeds the recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non-financial assets except goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

2.08.06 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. The financing costs of borrowings attributable to ongoing investments are capitalised until the completion of the investments. All other borrowing costs are recognized in the consolidated statement of profit or loss in the period in which they are incurred.

2.08.07 Financial Instruments

TFRS 9 "Financial Instruments"

TFRS 9 includes requirements for recognition and measurement of financial assets and liabilities. This standard replaces TAS 39 Financial Instruments: Recognition and Measurement.
The details of significant accounting policies and nature of changes in previous accounting policies are as follows:

i.) Classification of financial assets and liabilities under TFRS 9 largely preserves the existing requirements of TAS 39 for the classification and measurement of financial liabilities. However, the previous TAS 39 classification categories for financial assets, loans and receivables to be held to maturity financial assets and financial assets available for sale have been removed.

The application of TFRS 9 did not have a significant material influence on the Group's accounting policies for its financial liabilities and derivative financial instruments. The classification and measurement of the financial assets under TFRS 9 are as follows.

The classification of financial assets within the scope of TFRS 9 is generally based on the business model used by the enterprise for the management of financial assets and the characteristics of the contractual cash flows of the financial asset. Within the scope of the standard, the obligation to separate embedded derivatives from financial assets has been eliminated, and the classification of a hybrid contract as a whole should be considered.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

• it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

• it is its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument at FVOCI if both of the following conditions are met and the FV is not classified as measured by the difference in profit or loss:

- The retention of the financial asset based on a business model aimed at collecting contractual cash flows and selling financial assets;
- The contractual terms of the financial asset lead to cash flows that include interest payments on principal and principal balance on certain dates.

The Group may irrevocably make preference about presentation of subsequent changes in its fair value in other comprehensive income on initial recognition of non-trading equity investment. This is made separately for each investment.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

In the first measurement of the financial assets other than the fair value changes that are reflected to the profit or loss (except for the trade receivables that are measured at the transaction cost and not having an important financing component at the time of the financial statements), the transaction costs directly attributable to the acquisition or issuance thereof are also added to the fair value.
The following accounting policies apply to the subsequent measurement of financial assets.

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in statement of profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt instruments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity instruments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

ii) Impairment of financial assets;

TFRS 9 replaces the "incurred loss" model in TAS 39 with an "expected credit loss" ("ECL") model. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under TFRS 9, credit losses are recognized earlier than under TAS 39.

The financial assets at amortized cost consist of trade receivables and cash and cash equivalents.

Under TFRS 9, loss allowances are measured on either of the following bases: financial assets measured at amortized cost

- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument and bank balances for which credit risk has not increased significantly since initial recognition;

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realizing security (if any is held).

- 360 days overdue

For determining whether a financial instrument has low credit risk, it may use other methodologies that comply with a globally accepted definition of low credit risk and take into account the type and risks of the financial instruments being evaluated.

The maximum time to be measured by the ECLs is the maximum contractual period that the Group is exposed to credit risk. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

For trade receivables, other receivables, other assets and contract assets the Group applies the simplified approach to providing for expected credit losses (TFRS 9 requires the use of the lifetime expected loss provision for all trade receivables). The expected credit losses were calculated based on actual credit loss experience over the past years.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of impairment

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in OCI, instead of reducing the carrying amount of the asset.

Trade receivables

The following analysis provides further detail about the calculation of ECLs related to trade receivables and contract assets on the adoption of TFRS 9. The Group considers the model and some of the assumptions used in calculating these ECLs as key sources of estimation uncertainty. The Group performed the calculation of ECL for receivables at the reporting date and loss allowance performances in accordance with the past three year performances. Exposures within each group were segmented based on common credit risk characteristics such as credit risk grade, delinquency status, geographic region, age of relationship.

Impairment of financial assets

The Group management makes assumptions and judgments such as default risk and expected credit losses for the relevant assets when evaluating impairment on financial assets. While making these assumptions and judgments as of each balance sheet date, considering the past experiences and performances of the Group, and the current market conditions and future expectations for the market.

2.08.08 Foreign Currency Translation

Foreign currency transactions are translated into Turkish Lira using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Turkish Lira using the exchange rates at the consolidated balance sheet date. Foreign exchange gains and losses resulting from trading activities (trade receivables and payables) denominated in foreign currencies of the Group operating in the non-finance sectors, have been accounted for under "other operating income/(expenses)".

The consolidated financial statements are presented in TL, which is Kocaer Çelik's functional and presentation currency. Transactions in currencies other than functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign currency indexed monetary assets and liabilities are recognised at the rates of exchange prevailing on the balance sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated to functional currency as Turkish Lira using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Currency translation differences recognized as profit or loss in the period which they incurred.

2.08.09 Earnings Per Share

Earnings per share disclosed in the statement of profit or loss are determined by dividing net income attributable to equity holders of the parent by the weighted average number of shares outstanding during the period concerned.

In Türkiye, companies can increase their share capital through a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings and inflation adjustment to equity. For the purpose of earnings per share computations, the weighted average number of shares in existence during the period has been adjusted in respect of bonus share issues without a corresponding change in resources, by giving them retroactive effect for the period in which they were issued and each earlier period as if the event had occurred at the beginning of the earliest period reported.

2.08.10 Events After the Reporting Period

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue. The Group adjusts the amounts recognised in its consolidated financial statements to reflect the adjusting events after the balance sheet date. If non-adjusting events after the balance sheet date have material influence on the economic decisions of users of the financial statements, they are disclosed in the notes to the consolidated financial statements.

2.08.11 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Contingent liabilities are consistently reviewed prior to the probability of any cash out-flow. In case of the cash outflow is probable, provision is allocated in the financial statements of the year the probability of contingent liability accounts is changed. A provision is recognized when the Group has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and reliable estimate can be made for the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation.

Where the effect of the time value of money is material, the amount of provision shall be the present value of the expenditures expected to be required to settle the obligation. The discount rate reflects current market assessments of the time value of money and the risks specific to the liability. The discount rate shall be a pre-tax rate and shall not reflect risks for which future cash flow estimates have been adjusted.

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group are not included in the consolidated financial statements and treated as contingent assets or liabilities.

2.08.12 Related Parties

For the purpose of these consolidated financial statements, shareholders, parents of Kocaer Çelik Sanayi ve Ticaret Anonim Şirketi, key management personnel and Board of Directors members, their close family members and the legal entities over which these related parties exercise control and significant influence, are considered and expressed as "related parties".

2.08.13 Government Grants

The Group is entitled to have personel employment and turquality incentives and rights which are considered in the scope of government grants.

2.08.14 Taxes on Income

Income tax expense (or income) is the sum of the current tax expense and the deferred tax expense (or income).

Current tax

Current year tax liability is calculated over the taxable profit for the period. Taxable profit differs from profit as recognised in the statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it excludes items that cannot be taxed or deducted. The Group's liability for current tax is calculated using legal statuory tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax assets and liabilities are determined by calculating the temporary differences between the amounts presented in the financial statements and the amounts considered in the statutory tax base in accordance with the balance sheet method. Deferred tax liabilities are recognized for all taxable temporary differences, whereas deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. Deferred tax liability or asset is not calculated in respect of temporary timing differences arising from the initial recognition of assets or liabilities other than goodwill or business combinations and which do not affect both commercial and financial profit /loss.

Deferred tax liabilities are calculated for all taxable temporary differences related to the investments in subsidiaries and associates and shares in joint ventures, except in cases where the Group is able to control the discontinuation of temporary differences and in the near future it is unlikely that such difference will be eliminated. Deferred tax assets resulting from taxable temporary differences related to such investments and shares are calculated on the condition that it is highly probable that future taxable profit will be available and that it is probable that future differences will be eliminated.

The carrying amount of the deferred tax asset is reviewed at each balance sheet date. The carrying amount of a deferred tax asset is reduced to the extent that it is no longer probable that financial profit will be available to allow the benefit of some or that entire amount.

Deferred tax assets and liabilities are calculated over the tax rates that are expected to be valid in the period when the assets are realized or the liabilities are fulfilled and legalized or substantially legalized as of the balance sheet date (tax regulations). During the calculation of deferred tax assets and liabilities, the tax consequences of the methods that the Group expects to recover or settle the carrying amount of the assets as of the balance sheet date are taken into consideration

Deferred tax assets and liabilities are recognized when there is a legal right to offset current tax assets and current tax liabilities, or if such assets and liabilities are associated with the income tax collected by the same tax authority, or if the Group intends to pay off the current tax assets and liabilities.

Current and deferred tax for the period

The deferred tax, other than those directly attributable to debt or liability recognized in equity (in which case deferred tax is recognized directly in equity) or deferred tax, other than those arising from initial recognition of business combinations, is recognized as income or expense in the statement of profit or loss. In business combinations, the tax effect is taken into consideration in the calculation of goodwill or in determining the part of the purchaser that exceeds the acquisition cost of the share of the acquiree's identifiable assets, liabilities and contingent liabilities in the fair value.

The taxes included in the consolidated financial statements include current period tax and the change in deferred taxes. The Group calculates current and deferred tax on the results for the period.

Offsetting in tax assets and liabilities
The amount of corporate tax payable is netted because it is related to prepaid corporate tax amounts. Deferred tax assets and liabilities are also offset in the same way.

2.08.15 Provision for Employment Termination Benefits

The provision for employment termination benefits, as required by Turkish Labour Law represents the present value of the future probable obligation of the Group arising from the retirement of its employees based on the actuarial projections. TAS 19 "Employee Benefits" requires actuarial assumptions (net discount rate, turnover rate to estimate the probability of retirement etc.) to estimate the entity's obligation for employment termination benefits. The effects of differences between the actuarial assumptions and the actual outcome together with the effects of changes in actuarial assumptions compose the actuarial gains/(losses) and recognised under consolidated statement of other comprehensive income.

In the accompanying consolidated financial statements, termination benefits is recognised as the amount calculated by discounting the future obligations at the balance sheet date using the appropriate interest rate adjusted for the inflation rate.

2.08.16 Statement of Cash Flows

Cash and cash equivalents are carried at cost in the consolidated statement of financial position. Cash flows during the period are classified and reported by operating, investing and financing activities in the cash flow statements. Cash flows from operating activities represent the cash flows generated from the Group's activities such as cash on hand, bank deposits and highly-liquid investments.

Cash flows from investing activities represent the cash flows that are used in or provided from the investing activities of the Group (property, plant and equipment, intangible assets and financial assets).

Cash flows from financing activities represent the cash proceeds from the financing activities of the Group and the repayments of these funds.

2.08.17 Investment Properties

Investment properties that are held in the production of supply of goods or services of for administrative purposes or for long term rental yields or for capital appreciation or both rather than for the sale in the ordinary course of business are classified as "investment property". Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date. Daily repair and maintenance is not included in the aforementioned costs. Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise. Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of profit or loss and other comprehensive income in the year of retirement or disposal

Investment properties has been revaluated by the appraisal firm Elit Gayrimenkul Değerleme Anonim Şirketi authorized by CMB. In accordance with the appraisal report prepared by the firm, investment properties carried at their fair value on 22-31 January 2025 and 21 January 2026 in the accompanying consolidated financial statements for the year ended 31 December 2025. The detailed information regarding investment properties is disclosed under **Note 17**.

2.08.18 Leases

Group - as a lessee

The Group has measured its right-of-use assets on a basis equivalent to the lease liability, adjusted for prepaid or accrued lease payments. The Group has elected to use the following simplifying treatments:

- The Group has applied a single discount rate to a portfolio of leases with reasonably certain in nature.

- As an alternative to reviewing the impairment, the Group has made its assessment of whether the leases are economically disadvantaged or not by applying TAS 37 "Provisions, Contingent Liabilities and Contingent Assets" just before the initial transition.
- The Group has applied previous performance, trends and experiences for determining the lease term for lease contracts tha include terminate and extension options.

The Group recognises a right-of-use asset and a lease liability at the commencement date of the lease following the consideration of the above mentioned factors. At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

a) The amount of the initial measurement of the lease liability,
b) Any lease payments made at or before the commencement date, less any lease incentives received,
c) Any initial direct costs incurred by the Group, and
d) An estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease (unless those costs are incurred to produce inventories).
When applying the cost model, the Group measures the right-of-use asset at cost:

a) Less any accumulated depreciation and any accumulated impairment losses; and
b) Adjusted for any remeasurement of the lease liability.

The Group applies the depreciation requirements in TAS 16 "Property, Plant and Equipment" in depreciating the right-of-use asset. In the event that the supplier transfers the ownership of the underlying asset to the Group at the end of the lease term or if the cost of use rights indicates that the Group will use a purchase option, the Group depreciates the right of use asset from the effective date of the lease to the end of the useful life of the underlying asset. In other cases, the Group depreciates the right of use assets on the basis of the shorter of the useful life or the lease term of the asset, starting from the effective date of the lease.
The Group applies TAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease, if that rate can be readily determined, or by using the Group's incremental borrowing rate.

The lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

a) Fixed payments, less any lease incentives receivable,
b) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date,

c) The exercise price of a purchase option if the Group is reasonably certain to exercise that option; and

d) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability by:

a) Increasing the carrying amount to reflect interest on the lease liability,
b) Reducing the carrying amount to reflect the lease payments made, and
c) Remeasuring the carrying amount to reflect any reassessment or lease modifications. The Group recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

The interest on the lease liabilities for each period in the lease term is the amount found by applying a fixed periodic interest rate to the remaining balance of the lease liabilities. The periodic interest rate, if easily determined, is the implied interest rate on the lease. If this rate cannot be easily determined, the Group uses the Group's incremental borrowing interest rate.

After the effective date of the lease, the Group remeasures the lease liabilities to reflect changes in lease payments. The Group reflects the remeasurement amount of the lease liabilities to the consolidated financial statements as an adjustment to the right of use assets.

The Group remeasures its lease liabilities by deducting the adjusted lease payments at a revised discount rate if either of the following conditions occurs:

(a) A change in the lease term. The Group determines adjusted lease payments based on the adjusted lease term.

(b) A change in these payments as a result of an index or rate change used to determine future lease payments. The Group remeasures the lease liabilities to reflect the adjusted lease payments only when there is a change in cash flows.

The Group calculates the adjusted discount rate for the remainder of the lease term if the implicit interest rate in the lease can be easily determined; if it cannot be easily determined, the Group determines the alternative borrowing interest rate at the date of the revaluation.

The Group remeasures its lease liabilities by reducing the adjusted lease payments if either of the following conditions incurred:

(a) Changes in the amounts expected to be paid under a residual value commitment. The Group determines the adjusted lease payments to reflect the change in the amounts expected to be paid under the residual value commitment.

(b) A change in these payments as a result of an index or rate change used to determine future lease payments. The Group remeasures the lease liabilities to reflect the adjusted lease payments only when there is a change in cash flows.

The Group determines the adjusted lease payments for the remaining lease term based on the adjusted contractual payments. In this case, the Group uses an unchanged discount rate.
The Group recognizes the restructuring of the lease as a separate lease if both of the following conditions are met:
(a) The restructuring shall extend the scope of the lease by adding the right of use on one or more underlying assets; and

(b) The increase in the lease amount by the appropriate price adjustment to reflect the price of the increase alone and the terms of the relevant contract.

Right of use assets of the Group is disclosed under **Note 14**.

Group - as a lessor

The Group classifies each of the leases as operating leases or finance leases. A lease is classified as a finance lease when all risks and gains of ownership of the underlying asset are substantially transferred. A lease is classified as an operating lease if all risks and gains of ownership of the underlying asset are not substantially transferred. For a contract that includes one or more additional leasing components or not carrying a component, the Group distributes the contractual value by applying TFRS 15, "Revenue from Contracts with Customers".

2.09 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with TFRS requires management to make estimates and assumptions that are reflected in the measurement of income and expense in the statement of profit or loss and in the carrying value of assets and liabilities in the statement of financial position, and in the disclosure of information in the notes to the financial statements. Managements do exercise judgment and make use of information available at the date of the preparation of the financial statements in making these estimates. The actual future results from operations in respect of the areas where these judgments and estimates have been made may in reality be different than those estimates.
The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the consolidated financial statements are as follows:

a) Provision for employment termination benefits is determined by using actuarial assumptions (discount rates, future salary increases and employee exit rates) **(Note 24)**.

b) The Group has been applied revaluation model on property, plant and equipment and investment properties in the accompanying consolidated financial statements. The fair value of property, plant and equipment and investment properties have been determined by appraisal firm authorized by CMB **(Note 17 and 18)**.

c) The Group depreciates its property, plant and equipment and intangible assets on a straight-line basis over their useful lives. Expected useful life residual value and amortization method are reviewed every year for possible effects of changes in estimates and are accounted for prospectively if there is a change in estimates **(Note 2.08.03-2.08.04)**.

d) On the provision for lawsuits, the probability of losing these cases regarding collecting the receivables and the consequences to be faced if these cases are lost evaluated in accordance with the opinions of the Group's legal counsel as of 31 December 2025 and 2024 **(Note 22)**.

e) In determining the impairment of trade receivables, creditworthiness of debtors, past payment performances and restructuring conditions, collaterals of mortgages and receivable insurance amounts taken into consideration **(Note 10)**.

f) The Group has calculated the deferred tax in accordance with TAS and TFRS and reflected to the consolidated financial statements **(Note 35)**.

g) The physical properties of the inventories and the past are examined in relation to the inventory impairment, the availability of the personnel is determined according to the opinions of the technical personnel and provision is made for the items that are estimated to be unavailable. Average sales prices are used to determine the net realizable value of inventories and provision for impairment is allocated in the accompanying consolidated financial statements when net realizable value is below the cost. The information about the inventory impairment that has been presented as of the balance sheet date is given in **Note 13**.

2.10 Dividends

Common shares are classified as equity. Dividends on common shares are recognized in equity less retained earnings in the period in which they are approved and declared less retained earnings.

2.11 Going Concern

As of 31 December 2025, the Group has prepared its consolidated financial statements with the assumption on the Group's ability to continue its operations in the foreseeable future as a going concern basis of accounting.

2.12 New and Revised Turkish Financial Reporting Standards

The accounting policies adopted in preparation of the consolidated financial statements as at and for the year ended 31 December 2025 are consistent with those of the previous financial year, except for the adoption of new and amended Turkish Accounting Standards ("TFRS/TAS") and interpretations effective as of 1 January 2026 and thereafter. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations effective as of 1 January 2026 are as follows:

Amendments to TFRS 9 and TFRS 7 – Classification and measurement of financial instruments

On 10 August 2025, the POA issued amendments to the classification and measurement of financial instruments (amendments to TFRS 9 and TFRS 7). The amendment clarifies that a financial liability is derecognised on the 'settlement date'. It also introduces an accounting policy option to derecognise financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met. The amendment also clarified how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features as well as the treatment of non-recourse assets and contractually linked instruments. Additional disclosures in TFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income are added with the amendment. The amendment will be effective for annual periods beginning on or after 1 January 2026. Entities can early adopt the amendments that relate to the classification of financial assets plus the related disclosures and apply the other amendments later. The new requirements will be applied retrospectively with an adjustment to opening retained earnings. The Group is in the process of assessing the material influence of the amendments on financial position or performance of the Group.

Contracts Referencing Nature-dependent Electricity—Amendments to TFRS 9 and TFRS 7

On 10 August 2025, the POA issued the amendment "Contracts for Electricity Generated from Natural Resources" (related to TFRS 9 and TFRS 7). The amendment clarifies the application of the "own use" exception and permits hedge accounting when such contracts are used as hedging instruments. The amendment also introduces new disclosure requirements to help investors understand the impact of these contracts on an entity's financial performance and cash flows. The amendment is not applicable for the Group and has no material influence on the financial position or performance of the Group.

Annual Improvements to TAS/TFRS Accounting Standards - Amendment 11

On 27 September 2025, the POA issued "Annual Improvements to TAS/TFRS Accounting Standards /Amendment 11" published in the Official Gazette with the following amendments:

- TFRS 1 First-time Adoption of International Financial Reporting Standards - Hedge accounting by a first-time adopter: The amendment is intended to eliminate potential confusion caused by the inconsistency between the wording in TFRS 1 and the hedge accounting requirements in TFRS 9.
- TFRS 7 Financial Instruments: Disclosures - Gains or losses on derecognition: TFRS 7 amends the wording of unobservable inputs and adds a reference to TFRS 13.
- TFRS 9 Financial Instruments - Transaction price when the lease liability is derecognized by the lessee: TFRS 9 has been amended to clarify that when the lease liability is extinguished for the lessee, the lessee is required to apply the derecognition provisions in TFRS 9 and the resulting gain or loss is recognized in profit or loss. TFRS 9 has also been amended to remove the reference to "transaction price".
- TFRS 10 Consolidated Financial Statements - Identifying the "de facto agent": Amendments to TFRS 10 to remove inconsistencies in paragraphs.
- TAS 7 Statement of Cash Flows - Cost method: The wording in the Standard has been deleted following the removal of "cost method" in previous amendments.

The amendments will be effective for annual reporting periods beginning on or after 1 January 2026, and early application permitted.

The Group is in the process of assessing the material influence of the amendments on financial position or performance of the Group.

TFRS 17 - The new Standard for insurance contracts

POA issued TFRS 17 in February 2019, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. TFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. The mandatory effective date of the Standard postponed to accounting periods beginning on or after 1 January 2026 with the announcement made by the POA.

The standard is not applicable for the Group and the standard has no material influence on the financial position or performance of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

Amendments to TFRS 10/TAS 28 — Sales or contributions of assets between an investor and its associate/joint venture

In December 2017, the POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted. The Group will assess the effects of the amendments after the new standards have been finalized.

TFRS 18 Presentation and Disclosure in Financial Statements

The standard is effective from annual periods beginning on or after 1 January 2027 and published in the Official Gazette on 8 May 2025. This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in TFRS 18 relate to:

• the structure of the statement of profit or loss;

• required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and

• enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

The Group is in the process of assessing the material influence of the standard on financial position or performance of the Group.

TFRS 19 – Subsidiaries without Public Accountability: Disclosures

TFRS 19 – Subsidiaries without Public Accountability: Disclosures ("TFRS 19") was published in the Official Gazette on 10 August 2025. It is effective for annual reporting periods beginning on or after 1 January 2027. Early application is permitted. The standard aims to reduce the disclosure requirements in TAS/TFRS for subsidiaries covered by its scope. Under TFRS 19, businesses that are not subject to public accountability and are themselves subsidiaries are expected to apply the simplified disclosure provisions set out in TFRS 19 instead of the disclosure provisions in other TAS/TFRS. This aims to reduce the reporting obligations of these businesses in terms of disclosure provisions. The application of TFRS 19 is not mandatory and is left to the discretion of the entity.

A subsidiary meets the relevant conditions in the following circumstances:

- It is a non-public subsidiary or a subsidiary whose capital market instruments are not traded on a stock exchange, or

- It has a parent or intermediate parent that produces financial statements in accordance with TAS/TFRS that are available to the public.

The standard has no material influence on the financial position or performance of the Group.

NOTE 3 – BUSINESS COMBINATIONS

Business combination transactions with non-controlling interests

As of 31 December 2025 and 2024, the Group has no acquisitions under business combinations in accordance with TFRS 3.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

Business combinations under common control

Legal mergers among the entities controlled by the Group are not evaluated within the scope of the "TFRS 3 (Revised) Business Combinations" standard. Acccordingly, in the absence of a specifically applicable TFRS, the receiving company is required to develop its own accounting policy for business combinations under common control, applying the requirements on selecting accounting policies in TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in accordance with the paragraphs 10 and 12 presented under "POA" which describes applications and policies regarding business combinations under common control.

The financial statements of the acquired entities have been consolidated from the beginning of the financial year in which the business combination occurs. Prior period consolidated financial statements have been restated in the same manner for comparability purposes. As a result of these transactions, no goodwill or negative goodwill has been calculated. Any difference between the consideration paid and the share capital of the acquired entity are accounted under equity as "Business combinations under common control" included in retained earnings.

NOTE 4 - DISCLOSURE OF INTERESTS IN OTHER ENTITIES

None.

NOTE 5 - SEGMENT REPORTING

The reportable segments of Kocaer Çelik have been organized by the Group management which are strategic businessess that present various products and services. Those segments include steel, transportation, energy, foreign trade and various other sectors.

Operating segments which have been prepared in accordance with the reportable segments of Kocaer Çelik for the years ended 31 December 2025 and 2024 are as follows:

31.12.2025	**Steel**	**Transportation**	**Energy**	**Foreign trade – Kcr Dış Ticaret**	**Elimination/ Adjustments**	**Total**

As of 31 December 2025 and 2024, the Group has no long-term other payables.

NOTE 12 - DERIVATIVE INSTRUMENTS

As of 31 December 2025 and 2024, the Group has no short and long-term derivative instruments.

The Group uses hedge accounts on its consolidated statement of financial position by borrowing in the same currency against the foreign currency denominated risks arising from the foreign currency sales amounts to be realized in the subsequent periods within the scope of the agreements.

In this context, repayments of foreign currency denominated borrowings, which are subject to hedge accounting and determined as hedging instrument, are made with foreign currency sales cash flows that are realized on closing dates and determined as hedged item within the scope of hedge accounting.

In accordance with the currency risk management strategy determined by the Group management, unrealized firm commitment applies hedge accounting to hedge the currency risk component of the fair value risk and hedge the cash flow risk of the highly probable forecast transaction currency risk component and is formed on the hedged item and the hedging instrument. The Group aims to present a precise statement of profit or loss by netting the foreign exchange rate fluctuations that have not yet been realized and by following the currency fluctuations of bank borrowings, which are defined as hedge instruments, under the consolidated statement of other comprehensive income.

NOTE 13 – INVENTORIES

As of 31 December 2025 and 2024, the breakdown of inventories is as follows:

Account Name	**31.12.2025**	**31.12.2024**
Raw materials and supplies	1.017.283.182	1.278.061.327
Finished goods	1.760.973.409	1.746.476.337

The functional breakdown of letters of guarantee which has been provided to various institutions during the period given accordingly to Customs Office, Electricity and Natural Gas distributor companies and tribunals. On the other hand, the Group has obtained letters of guarantees from its shareholders considered as bill of guarantees for acquisition of raw materials and supplies which were considered as deposit.

iv) Ratio of guarantees and mortgages to equity

As of 31 December 2025 and 2024, the Group's collateral/pledge/mortgage/bill of guarantees ("C&P&M&B") position is as follows:

Collaterals, Pledges, Mortgages, Bill of Guarantees Given by the Group	31.12.2025	31.12.2024
A. Total amount of CPMB's given in the name of its own legal personality	2.734.009.040	1.423.588.329
B. Total amount of CPMB's given on behalf of the fully consolidated subsidiaries	-	-
C. Total amount of CPMB's given on behalf of third parties for ordinary course of business	-	-
D. Total amount of other CPMB's given	11.142.488.015	10.415.866.311
i) Total amount of CPMB's given on behalf of the majority shareholder	-	-
ii) Total amount of CPMB's given to on behalf of other group companies which are not in scope of B and C	11.142.488.015	10.415.866.311
iii) Total amount of CPMB's given on behalf of third parties which are not in scope of C	-	-
Total	**13.876.497.055**	**11.839.454.640**

The ratio of other CPMB's given by the Group to its equity is 93% as of 31 December 2025 (31 December 2024: 84%).

v) Total insurance coverage on assets

As of 31 December 2025, total insurance coverage on property, plant and equipment is amounting to TL 9.386.858.203 and USD 32.000.000 against wide variety of risks as collateral (31 December 2024: TL 33.310.133.773 and USD 32.000.000).

NOTE 23 - COMMITMENTS

None.

NOTE 24 – PROVISIONS FOR EMPLOYEE BENEFITS

	31.12.2025	31.12.2024
Provision for employment termination benefits	65.157.758	85.681.026
Total	**65.157.758**	**85.681.026**

Under Turkish Labour Law, Kocaer Çelik and its subsidiaries and associates incorporated in Türkiye are required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, who is called up for military service, dies or retires after completing 25 years of service (20 years for women) and reaches the retirement age (58 for women and 60 for men).

As of 31 December 2025, the amount payable consists of one month's salary limited to a maximum of TL 64.948,77 (31 December 2024: TL 46.655,43) for each year of service.

The liability is not funded as there is no funding requirement.

The provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. TAS 19 ("Employee Benefits") requires actuarial valuation methods to be developed to estimate the entity's obligation under defined benefit plans. Accordingly, the following actuarial assumptions are used in the calculation of total liabilities:

The principal assumption is that the maximum liability for each year of service increases in line with inflation. Therefore, the discount rate applied represents the expected real rate after adjusting for future inflation effects.

As of 31 December 2025, the provisions in the accompanying consolidated financial statements are calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. As of 31 December 2025, the provisions at the respective balance sheet dates have been calculated assuming an annual inflation rate of 26.20% and an interest rate of 30.74%, resulting in a discount rate of 5.51%.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

The movements of provision for employment termination benefits are as follows:

	01.01.2025 31.12.2025	01.01.2024 31.12.2024
Beginning of the period – 1 January	**85.681.026**	**72.737.478**
Payments during the period (-)	(34.523.234)	(33.804.369)
Interest cost	8.401.272	6.899.679
Service cost	14.225.299	18.551.211
Loss on remeasurements of defined benefit plans	24.960.914	27.987.235
Actuarial gains/losses	(13.396.967)	20.521.911
Inflation adjustments	(20.190.552)	(27.212.124)
End of the period – 31 December	**65.157.758**	**85.681.021**

NOTE 25 - TAX ASSETS AND LIABILITIES

As of 31 December 2025 and 2024, the breakdown of current income tax assets is as follows:

	31.12.2025	31.12.2024
Prepaid taxes	1.505	17.030.097
Current income tax assets, net	**1.505**	**17.030.097**

NOTE 26 - OTHER ASSETS AND LIABILITIES

As of 31 December 2025 and 2024, the breakdown of other current assets is as follows:

Account Name	31.12.2025	31.12.2024
Deferred VAT	79.558.092	263.131.853
Other current assets, net	**79.558.092**	**263.131.853**

As of 31 December 2025 and 2024, the Group has no other current and non-current liabilities.

NOTE 27 – EQUITY

i) Non-controlling interests

From all equity account group items of subsidiaries within the scope of consolidation, including paid/issued share capital, the amounts corresponding to the shares other than the parent company and subsidiaries are deducted and disclosed in the equity of the consolidated statement of financial position as "Non-Controlling Interests".

As of 31 December 2025 and 2024, the movements of non-controlling interests are as follows:

	31.12.2025	31.12.2024
Paid-in share capital	7.307.952	6.273.336
Adjustment to share capital	19.085.579	18.872.022
Gains/(losses) on remeasurements of defined benefit plans, net	(273.600)	(267.334)
Currency translation differences, net	908.093	2.072.331

Retained earnings, net	4.323.774	4.036.837
Adjustments of inflation from TAS 29	-	(258.116)
Profit for the period, net	5.731.638	295.140
End of the period – 31 December	**39.457.115**	**33.397.895**

ii) Share capital//Capital adjustments due to cross-ownership
As of 31 December 2025 and 2024, the principal shareholders and their respective shareholding rates in Kocaer Çelik are as follows:

	31.12.2025		31.12.2024	
Shareholders	**Amount**	**Share (%)**	**Amount**	**Share (%)**
Hakan Kocaer	1.420.836.864	74	1.420.836.864	74
Other (Listed shares)	494.163.136	26	494.163.136	26
Total share capital	**1.915.000.000**	**100**	**1.915.000.000**	**100**

Number of shares, class of shares and privileges

The Group has applied the registered capital system in accordance with the CMB regulations and adopted to the registered capital system with the permission of the CMB on 14 April 2022 and numbered 18/589. The issued share capital of the Group has been increased by TL 1.257.430.000 to TL 1.915.000.000 and the issued share capital has been fully paid free of collusion. The capital increase was registered and announced in the Official Gazette on 28 December 2024 and numbered 11217.

Capital adjustments due to cross-ownership

None.

iii) Capital reserves

None.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

iv) Restricted reserves

The legal reserves consist of first and second legal reserves, appropriated in accordance with the Turkish Commercial Code (TCC). The TCC stipulates that the first legal reserve is appropriated out of historical statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's historical paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the historical paid-in share capital. Under TCC, the legal reserves are not available for distribution unless they exceed 50% of the historical paid-in share capital but may be used to offset losses in the event that historical general reserve is exhausted. The details of the restricted reserves are as follows:

Account Name	31.12.2025	31.12.2024
Legal reserves	178.719.489	176.859.876

Equity holders of the parent	**12.292.541.040**	**12.395.515.613**
Non-controlling interests	39.457.115	33.397.895
Total equity	**12.331.998.155**	**12.428.913.508**

In accordance the CMB Decision on 7 March 2024 and numbered 14/382

a) - Although it is indicared in the notes to the consolidated financial statements in the Board Bulletin numbered 2013/19 that the "Legal Reserves" under the "Restricted Reserves" will be presented in the consolidated financial statements based on the value in the statutory records, considering the index difference used in inflation adjustments, with the aim of presenting the financial statements as a whole under a single index; "Legal Reserves", including "Adjustment to share capital", "Share premium" (Emission premium)", and statutory reserves and special reserves and other classified under "Other Reserves",

- To be presented in the Statement of Financial Position over the CPI-adjusted amounts,

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

- The difference between the inflation adjusted amounts in the statutory records and the inflation adjusted amounts in the consolidated financial statements prepared in accordance with TAS/TFRS shall be recognised in the "Retained earnings", and in this context, a disclosure shall be realised in the notes to the consolidated financial statements about the "Adjustment to share capital" and reserve amounts recognised under equity in the TAS/TFRS consolidated statement of financial position, the details of the amounts of these items in the statutory records and the difference recognised in the "Retained earnings",

b) Within the scope of the initial transition to inflation, it has been decided to disclose the "Retained Earnings" in the consolidated statement of financial position prepared in accordance with TAS/TFRS and the indexed amount of the amount in the related period in the notes to the consolidated financial statements.

As of 31 December 2025, the comparison of the related equity items presented in the consolidated financial statements of the Group as adjusted for inflation in the consolidated financial statements prepared in accordance with the Tax Procedure Law with the inflation adjusted amounts in the consolidated financial statements prepared in accordance with the Tax Procedure Law and the "Retained Earnings" in the consolidated statement of financial position and the indexed amount of the related amount in the related period are as follows:

31.12.2025	Inflation Adjusted Amounts in Financial Statements Prepared in Accordance with Tax Procedure Law	Inflation Adjusted Amounts in Financial Statements Prepared in Accordance with TAS/TFRS Financial Statements	Retained earnings, net
Adjustment to share capital	767.496.369	1.578.132.006	810.635.637
Share premium	306.616.687	414.127.071	107.510.384
Restricted reserves	2.175.360.054	501.504.882	-1.673.855.172

NOTE 35 – INCOME TAXES

The Group's tax expense (or income) consists of current period corporate income tax expense and deferred tax expense or income and the functional breakdown of income taxes is as follows:

Account Name	**01.01.2025 31.12.2025**	**01.01.2024 31.12.2024**
Current period tax expense	(107.867.174)	(32.407.348)
Deferred income tax	(529.813.969)	(250.647.163)
Total tax income/(expense)	**(637.681.143)**	**(283.054.511)**

i) Corporate tax

The Group, its subsidiaries and associates operating in Türkiye, are subject to the tax legislation and practices in force in Türkiye. Provisions have been allocated in the accompanying consolidated financial statements for the estimated tax liabilities of the Group regarding the current period operating results.

Account Name	**31.12.2025**	**31.12.2024**
Current period tax expense	107.823.000	692.903
Less: Prepaid income tax	(41.456.600)	(94.589)
Current income tax liabilities, net	**66.366.400**	**598.314**

The corporate tax to be accrued on the taxable income is calculated on the basis of the deduction of the expenses that cannot be deducted from the tax base expense in the determination of the earnings, and the amount of dividends received from domestic companies, taxable income and investment allowances.

Corporate tax rates

As of 31 December 2025, corporate tax rate applied in Türkiye is 25% in accordance with the Corporate Tax Law numbered 5520 (31 December 2024: 25%). The corporate tax rate is applied to the tax base that will be calculated as a result of including the expenses that are not considered as deductible in accordance with the tax laws to the operating profit of the entities and deducting the exemptions and allowances (subsidiary earnings, investment discount, etc.) and deductions (Exemptions from research and development, etc.) included in the tax laws. Additional tax is not paid if the profit is not distributed.

In accordance with the Article 35 of the law numbered 7256 on Restructuring of Some Receivables and Amending Some Laws ("Law No. 7256"), published in the Official Gazette on 17 November 2020 effective from 1 January 2021. For the institutions at least 20% of whose shares are offered to the public to be traded in Borsa Istanbul Equity Market for the first time, the corporate tax rate will be applied at a 2 point discounted rate for 5 accounting periods starting from the fiscal period during which their shares are offered to the public for the first time. However, the above mentioned discount on corporate tax rate is not applicable for banks, leasing companies, factoring companies, financing companies, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. In case the condition disclosed in the aforementioned paragraph regarding the share ratio is lost within 5 accounting periods starting from the accounting period benefiting from the discount, taxes that are not accrued on time due to the reduced tax rate application are collected together with delay interest without any tax loss penalty.

According to Turkish Corporate Tax Law, losses can be carried forward to offset the future taxable income for a maximum period of 5 years. On the other hand, such losses cannot be carried back to offset prior years' profits.

According to corporate tax law article numbered 20, the corporate tax is imposed by the taxpayer's tax returns. In Türkiye, there is no procedure for a final and definitive agreement on tax assessments. Companies file their corporate tax returns between 1-30 April following the close of the accounting year. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

Dividend payments by resident corporations to resident joint-stock company in Türkiye are not subject to income tax. In addition, if the profit is not distributed or added to the capital, the income tax is not calculated. Dividend income (excluding profits from investment funds 'participation certificates and investment trusts' shares) obtained from participating in the capital of another corporation which is fully taxpayed is exempt from corporation tax.

The Group has been capitalised basic incentives and supports presented under the provisions of Law No. 5746 pertaining the Support of Research and Development Activities for the R&D investment projects in its statutory records. 100% of all eligible R&D and innovation expenditures made within technology centres, R&D centres (which should employ at least 15 (may increase to 30 for specific sectors) full-time equivalent R&D personnel), R&D and innovation projects supported by governmental institutions, foundations established by law, or international funds and design expenditures made within design centres (which should employ at least 10 full-time equivalent design personnel) and design projects supported by the above institutions can be deducted from the corporate income tax base in accordance with the necessary calculations which has been recognised in the accompanying consolidated financial statements.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

As of 31 December 2025 and 2024, provision for income tax has been calculated is as follows:

	31.12.2025	31.12.2024
Operating profit	**388.614.641**	**(36.612.596)**
Tax base additions	**221.650.677**	**113.675.347**
Non-deductible expenses	221.650.677	113.675.347
Tax allowances/exemptions (-)	**-**	**(17.286.175)**
Operating profit, net - domestic	**610.265.677**	**59.512.613**
Operating profit, net - foreign		**263.963**

Deduction from production activities	-	-
Foreign operation deductions	-	-
Current period tax expense, net	**107.867.174**	**(32.407.348)**

Income withholding tax

In addition to the corporate tax, it is required to calculate income tax withholding on any dividends, except for those distributed to all taxpayer entities and Turkish branches of foreign companies gaining dividend for such distribution and declaring these dividends within the corporate profit. The rate of income withholding tax implemented as 10% between 24 April 2003 and 22 July 2006. The rate of withholding tax has been increased from 10% to 15% upon the Cabinet decision No: 2006/10731, which was published in Official Gazette on 23 July 2006. Undistributed dividends incorporated in share capital are not subject to income tax withholding. In accordance with the decision of Cabinet numbered 2009-14592 dated 12 January 2009, the rate has been applied as 15%. Undistributed dividends incorporated in share capital are not subject to income tax withholding.

ii) Deferred tax

Kocaer Çelik, its subsidiaries and associates, recognise deferred tax assets and liabilities based upon temporary differences arising between their financial statements prepared in accordance with TAS/TFRS and the Turkish tax legislations.These differences usually due to the recognition of revenue and expense items in different reporting periods for the TAS/TFRS and tax purposes, the differences explained as below.

As of 31 December 2025 and 2024, the breakdown of cumulative temporary differences and deferred tax assets and liabilities provided using principal tax rates are as follows:

	Cumulative temporary differences		**Deferred tax assets/(liabilitie**	
Account Name	**31.12.2025**	**31.12.2024**	**31.12.2025**	**31.12.20**

NOTE 38 - NATURE AND LEVEL OF RISKS DERIVED FROM FINANCIAL INSTRUMENTS

Capital risk management

The Group, while trying to maintain the continuity of its activities in capital management on one hand, aims to increase its profitability by using the balance between debts and resources on the other hand. The capital structure of the Group consists of cash and cash equivalents explained in note 6, borrowings explained in note 8 and equity items containing respectively issued share capital, capital reserves, profit reserves and profits of previous years explained in note 27. Risks, associated with each capital class, and the senior management evaluates the capital cost. It is aimed that the capital structure will be stabilized by means of new borrowings or repaying the existing debts as well as dividend payments and new share issuances based on the senior management evaluations.

The Group monitors capital on the basis of the net financial debt/total equity ratio. This ratio calculated as dividing net debt by total capital. Net debt is calculated by deducting cash and cash equivalents from the total debt amount (includes borrowings and finance leases as disclosed in the consolidated statement of financial postion). Total capital is calculated as equity, as presented in the consolidated statement of financial postion, plus net debt. General strategy based on the Group's equity does not differ from the prior period. The Group's overall risk management strategy focuses on the unpredictability of financial markets and targets to minimise potential adverse effects on the Group's financial performance.

Consolidated net financial debt/invested capital ratio as of 31 December 2025 and 2024 is as follows:

	31.12.2025	**31.12.2024**
Total borrowings	7.192.498.283	6.120.699.251
Less: Cash and cash equivalents	(5.177.750.833)	(4.023.713.411)
Net financial debt	2.014.747.450	2.096.985.840
Equity	12.331.998.155	12.428.913.508
Invested capital	14.346.745.605	14.525.899.348
Net financial debt/invested capital ratio	**0.1404**	**0.1444**

Foreign exchange risk

Foreign exchange risk arises from the fact that the Group has liabilities denominated in USD, EUR, GBP and other currencies.

Foreign exchange transactions result in foreign exchange risk arising from foreign exchange denominated assets and liabilities into Turkish Lira. The Group's exposure to foreign exchange risk arises from its borrowings, receivables and payables denominated in foreign currencies. In order to minimize this risk, the Group monitors its financial position and cash inflows/outflows with detailed cash flow statements as of 31 December 2025. The Group management evaluates and monitors the balance of the assets and liabilities denominated in Turkish Lira as open positions. The Group monitors foreign exchange rate risk through foreign exchange position analysis. Derivative financial instruments are also used as instruments for foreign exchange risk management for hedging purposes, if deemed necessary.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

As of 31 December 2025 and 2024, foreign exchange position of the Group is as follows:

Floating-interest rate financial instruments		
Financial assets	883.202.125	652.603.230

Equity securities and other related risks related financial instruments

The Group has no any securities and similar financial assets sensitive to changes in fair value.

Credit risk management

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

Holding financial instruments also carries the risk of the other party not meeting the requirements of the agreement. The Group's collection risk mainly arises from its trade receivables. Trade receivables are evaluated by taking into consideration the Group's accounting policies and procedures and accordingly, trade receivables are allocated in the consolidated statement of financial position less provision for doubtful receivables in the consolidated statement of financial position **(Note 10)**.

As of 31 December 2025 and 2024, the exposure of consolidated financial asset to credit risk is as follows:

Liqudity risk management

The Group tries to manage the liquidity risk by maintaining the continuation of sufficient funds and loan reserves by means of matching the financial instruments and terms of liabilities by following the cash flow regularly.

Liquidity risk statements

Liquidity risk is the risk that a Group will be unable to meet its funding needs. Prudent liquidity risk management is to provide sufficient cash and cash equivalents, to enable funding with the support of credit limits provided by reliable credit institutions and to close funding deficit. The Group provides funding by balancing cash inflows and outflows through the provision of credit lines in the business environment.

Undiscounted contractual cash flows of the derivative and non-derivative consolidated financial liabilities in TL as of 31 December 2025 and 2024 are as follows:

31.12.2025

Contractual maturities	Carrying value	Total contractual cash outflows	Demand or up to 3 months	4-12 months	1-5 years
Non-derivative financial liabilities	**11.833.915.206**	**11.819.968.374**	**6.150.962.066**	**3.521.803.714**	**2.147.202.594**

Fair value

Fair value is the amount for which a financial instrument could be exchanged, or a liability settled between, willing parties during current transaction, other than in a forced sale or liquidation, and is best evidenced through a quoted market price, if one exists. Foreign currency denominated receivables and payables are translated with the exchange rates prevailing as of the date of the consolidated financial statements.

The following methods and assumptions are used to estimate the fair values of financial instruments:

Financial assets

The carrying values of cash and cash equivalents including cash on hand and demand deposits, accrued interests and other financial assets are considered to approximate their respective carrying values due to their short-term nature and insignificant credit risk. The carrying values of trade receivables less provision for doubtful receivables are considered to approximate their respective carrying values.

Financial liabilities

The fair values of trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The fair values of the bank borrowings after discount are considered to be approximate to their corresponding carrying values. Bank borrowings are expressed with discounted cost and transaction costs are added to the initial cost of the loan. The fair values of the loans after discount are considered to be approximate to their corresponding carrying values. In addition, it is considered that the fair values of the trade payables are approximate to their respective carrying value due to their short-term nature.

NOTE 39 - FINANCIAL INSTRUMENTS (FAIR VALUE DISCLOSURES AND HEDGE ACCOUNTING)

Fair value hedge of foreign currency risk

The Group uses hedge accounts on its statement of financial position by borrowing in the same currency against the foreign currency denominated risks arising from the foreign currency sales amounts to be realized in the subsequent periods within the scope of the agreements.

In this context, repayments of foreign currency denominated borrowings, which are subject to hedge accounting and determined as hedging instrument, are made with foreign currency sales cash flows that are realized on closing dates and determined as hedged item within the scope of hedge accounting.

In accordance with the currency risk management strategy determined by the Group management, unrealized firm commitment applies hedge accounting to hedge the currency risk component of the fair value risk and hedge the cash flow risk of the highly probable forecast transaction currency risk component and is formed on the hedged item and the hedging instrument. The Group aims to present a precise statement of profit or loss by netting the foreign exchange rate fluctuations that have not yet been realized and by following the currency fluctuations of bank borrowings, which are defined as hedge instruments, under the consolidated statement of other comprehensive income.

In accordance with the hedge accounting strategy established by the Group management, the Group tries to maintain a 100% hedge ratio and a hedge effectiveness between 70% and 130%. As of 31 December 2025, hedge ratio and hedge effectiveness have been calculated as 105% and 101%, respectively.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

Hedge ratio, net	**105%**

Financial instruments and financial risk management

The Group is exposed to variety of financial risks due to its operations. These risks include credit risk, market risk (foreign exchange risk, interest rate risk at fair value, price risk) credit risk, cash flow interest rate risk and liquidity risk. The Group's overall risk management strategy focuses on the unpredictability of financial markets and targets to minimise potential adverse effects on the Group's financial performance. The Group also uses derivative instruments and forward contracts to hedge risk exposures.

Fair value of financial instruments

Fair value is the amount for which a financial instrument could be exchanged, or a liability settled between, willing parties during current transaction, other than in a forced sale or liquidation, and is best evidenced through a quoted market price, if one exists.

The Group determined fair value of financial instruments by using available market information and appropriate valuation methods. However, evaluating the market information and forecasting the real values requires interpretation. As a result, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

The following methods and assumptions are used to estimate the fair value of each financial instrument for which it is practicable to estimate fair value.

Monetary assets

The carrying values of financial assets including cash and cash equivalents are carried at cost which is considered to approximate their respective carrying values due to their short-term nature and insignificant credit risk. The carrying values of trade receivables less provision for doubtful receivables are considered to approximate their respective carrying values.

Monetary liabilities

The fair values of short-term bank borrowings and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature.

Fair value is the amount for which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists

Estimated fair values of financial instruments have been determined by the Group by using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data. Accordingly, estimates presented herein are not necessarily indicative of the amounts the Group could realise in a current market exchange.

Financial assets

The fair values of financial assets carried at cost including cash and cash equivalents and other financial assets are considered to approximate their respective carrying values due to their short-term nature and insignificant credit risk.

Debt and equity securities are carried at fair value in accordance with the market prices, if one exists.

The classification of the Group's consolidated financial assets and liabilities at fair value is as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities: The fair value of financial assets and financial liabilities are determined with reference to quoted market prices.

(Amounts expressed in Turkish Lira ("TL") in terms of the purchasing power of the TL on 31 December 2025, unless otherwise indicated.)

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices):

Level 3: Inputs for the asset or liability that are not based on observable market data.

NOTE 40 - FEES FOR SERVICES RECEIVED FROM INDEPENDENT AUDITOR/INDEPENDENT AUDIT FIRMS

The Group's explanation regarding the fees for the services received from the independent audit firms, which is based on the letter of POA dated 19 August 2021, the preparation principles of which are based on the Board Decision published in the Official Gazette on 30 March 2021 are as follows:

Account Name	01.01.2025 31.12.2025	01.01.2024 31.12.2024
Audit fee for the reporting period	5.475.000	4.908.462
Tax consulting fee	1.000.000	1.047.139
TOTAL	**6.475.000**	**5.955.601**

NOTE 41 - EVENTS AFTER THE REPORTING PERIOD

None.

NOTE 42 - THE OTHER MATTERS WHICH SUBSTANTIALLY AFFECT THE CONSOLIDATED FINANCIAL STATEMENTS OR ARE REQUIRED TO BE DESCRIBED IN TERMS OF MAKING THE CONSOLIDATED FINANCIAL STATEMENTS CLEAR, INTERPRETABLE AND UNDERSTANDABLE

None.
